Area students go back to school today

By Rebecca Dopp

Times-News Correspondent

Students from around the area are headed back to school today.

Teachers and staff have been hard at work to get the schools ready for the influx of students. There are several new teachers in the district as well, some who come from previous teaching experiences and some who are brand new to the game. We wish them, and all the teachers, good luck in the upcoming year.

Getting back into the routine of school is always hard, but remember these tips: Stick to a strict bedtime schedule, get prepared the night before, eat a balanced breakfast, and keep track of schedules and activities on a calendar. Reading with your children is important; 20-30 minutes a night is standard practice. Set up a time for homework, but don't forget free time. Every student needs a time to relax and recharge after a tough day at school.

The biggest change to the district is the new school lunch prices. Elementary and Junior High students will pay \$1.65 for lunch and \$1.25 for breakfast; High School students will pay \$1.85 for lunch. Adults will pay \$3.00 for lunch and \$1.25 for breakfast. Breakfast will be served at all schools 20 minutes prior to the start of school.

Mona Elementary School will start at 8:25 a.m. Red Cliffs and Nebo View Elementaries will begin instruction at 8:05 a.m. and 8:10 a.m., respectively. Juab Junior High and High School will begin promptly at 8:00 a.m.

The first official break for the district will be Labor Day on September 3 followed by Fall Break, October 18-19.

First quarter ends on October 26th.

Thanksgiving Break will be November 21-23; Christmas

Jail contracting study and SRO will come out of county law enforcement budgets

By Myrna Trauntvein

Times-News Correspondent

One item needing to be addressed will come from the jail budget and another will come from the sheriff's budget but that budget may need to be re-addressed later in the year.

Juab County's portion of a study being done for jail contracting will be paid out of the jail budget.

"We have received a copy of the RFP for the jail contracting study," said Chad Winn, commission chairman. "Our portion of the study will be \$1,100."

Jail Contracting is used to manage the state inmate popu-

HERE'S HOW IT WORKS • JHS student body vice-president Blake Newey explains how the t-shirt sales work at Freshman registration. The student body officers are hard at work with Back to School activities at the high school. Area schools are back in session today so slow down and give the kids a "Brake."

Rollover near Mills injures four East Juab juveniles

By Myrna Trauntvein

Times-News Correspondent

Four local girls were injured in a single car accident near Mills on Wednesday.

As a result of the accident, Samantha Guillory, Brinlee Taylor, Erin Hansen, and Alisha Richens were all injured in the rollover.

All are students at Juab High School and all are active in girl's sports.

Cory Housekeeper, Utah Highway Patrol Trooper, the investigating officer, said that on August 14, Utah Highway Patrol and Juab County Sheriff's Deputies responded to a report of a single car accident.

"A report was received of a red Ford Focus that had rolled over off the right side of the roadway on Interstate-15 near Mills," said Nick Bowles, Utah Highway Patrol Sgt.

The vehicle had four juvenile

female occupants, he said, and all were from the Nephi area.

"All of the young women were found to be wearing seat-belts," said Bowles.

All of the girls were transported to Central Valley Regional Medical Center by Levan Ambulance.

The driver of the vehicle, Guillory, was later air lifted to Utah Valley Regional Medical Center in serious condition.

While Bowles did not release the names of the victims, the names of the four young women were common knowledge and a tribute to Guillory was read during halftime at the Juab-Canyon View football game.

The accident took place on the evening of a volleyball game between Millard and Juab High Schools. The girls had attended the game as fans.

Bowles said that the cause of the accident was still under investigation.

A TOUCHING TRIBUTE TO FELLOW CLASSMATE • Kolten Kendall, Blake Newey, student body officers, Benj Todd, Senior Class President, Kennedy Jones, student body officer, and Alisha Richens, student body officer (and also involved in the accident), hold up a sign to show the compassion and support the JHS student body has for fellow classmate Samantha Guillory, senior, who was severely injured in a car accident last week while coming home from a volleyball game. A letter from the Canyon View High School student body was read at halftime expressing their sympathy for the four girls who were in the accident. Guillory was able to watch the tribute via a video call from the hospital where she is recuperating.

Commissioners decide to purchase larvacide for mosquito abatement program

By Myrna Trauntvein

Times-News Correspondent

Juab County Commissioners decided to purchase larvacide to be used in the mosquito abatement program in Juab County.

"These corncob mixed granules are good for areas where it is difficult to get to," said Mike Seely, county administrator.

This type of application will allow the spray to be broadcast further on edges of bodies of

water, he said. This particular pesticide is sprayed into water to kill mosquito larvae and pupae before they become adults.

If three bags of the chemical are purchased at once, Seely said, then the company will add a new backpack sprayer which will be used to spray the larvacide.

The county has an old back-
